

COMMUNITY REQUEST FORM

NSW Ambulance paramedics are often requested to attend and present at community events. While we make every effort to accommodate community requests, they are dependent on the availability of staff.

Our primary focus is the delivery of emergency out of hospital health care, so we rely on our staff to volunteer to provide community visits in their local areas.

In order to request a community visit from NSW Ambulance, please download and save this form and email it to community@ambulance.nsw.gov.au.
