INSTRUCTION SHEET

NSW Ambulance Authorised Paediatric Palliative Care Plan

NSW Ambulance Authorised Paediatric Palliative Care Plans (PPCP) were developed to enable paramedics to provide individualised care to a patient, who has a life-limiting illness. The PPCP will provide paramedics with the plan which has been developed by the medical practitioner in consultation with the patient and/or their person responsible. In order for the paramedic to follow the PPCP it must be endorsed by NSW Ambulance. If the PPCP is not endorsed, delay in the provision of the required treatment may result. Authorised Care Plans are only processed Mon - Fri (No Public Holidays)

Process for Endorsement

1. The form may be completed by either nurse of medical practitioners. Both medical and nurse practitioners may complete the medications and treatment options section of page 1. Medical practitioners only can complete the resuscitation status section of page 1.
2. In cases where the PPCP is completed solely by a medical practitioner, one signature from the medical practitioner only is required on page 3. In cases where the PPCP is jointly completed by a nurse practitioner and a medical practitioner both practitioners must sign their respective sections on page 3.
3. All fields must be completed and legible. Failure to complete the form legibly will result in the plans being returned to the author.
4. The completed form must be emailed to AMBULANCE-clinicalprotocolp1@health.nsw.gov.au or faxed to (02) 9320 7380 for NSW Ambulance endorsement.
5. Completed form is reviewed by NSW Ambulance and endorsed. If information is unclear or incomplete, the form may be returned to the author and will result in processing delays.
6. Completed form with a covering letter will be mailed back to the address indicated on the form (this can take up to 10 business days). If the patient/family agrees, the endorsed PPCP can be emailed directly to the nominated email address in lieu of post. This will facilitate more timely access to the endorsed PPCP. A copy of the endorsed PPCP will also be emailed or faxed to the medical practitioner.

N.B. please notify NSW Ambulance if the PPCP is no longer required or if the patient dies.

PPCPs remain valid for 12 months, after this time paramedics may not be able to follow the plan.

Paramedics carry a limited supply of routine medications (see list below). If the patient requires other medications to be administered to help manage symptoms, these medications must be available in the patient's residence.

Paramedics are not able to access medications that are in a locked medication safe in a residential aged care facility (RACF) if the registered nurse is not available.

Qualified Ambulance Paramedics			
Adrenaline	Aspirin	Benzyl Penicillin	Clopidogrel
Compound sodium lactate	Droperidol	Enoxaparin Sodium	Fentanyl
Fexofenadine	Glucagon	Glucose Gel	Glucose 10%
Glyceryl Trinitrate	Ibuprofen	Ipratropium Bromide	Methoxyflurane
Metoclopramide	Midazolam	Morphine	Naloxone
Ondansetron	Oxygen	Paracetamol	Salbutamol
Tenecteplase			
Advanced Life Support and Intensive Care Paramedics Only			
Amiodarone	Atropine	Calcium Gluconate	Frusemide
Ketamine	Lignocaine	Sodium Bicarbonate	

Paediatric Palliative Care Plan

NSW Ambulance Trim Number:	NSW Ambulance Document Number:

Patient's Details:	New PPCP Patient ☐	Existing PPCP Patient ☐
Surname:	Given Name:	Date of Birth: (DD/MM/YYYY) Sex: Male ☐ Female ☐ Other ☐
Street No. & Name		Home Ph: Mobile:
Suburb:		Postcode:
Safety Issues at home: Yes ☐ No ☐ (If yes, please provide details)		
Language:	Interpreter required: Yes ☐ No ☐	Dialect:
Is the patient Aboriginal or Torres Strait Islander? Yes ☐ No ☐ Prefer not to say ☐		
If patient is a hospital inpatient	Hospital Name:	MRN:

This section can be completed by Medical or Nurse Practitioner

As required medications to be administered to manage symptoms (if required please add extra list)

Medication	Dose	Route	Frequency	Indication/s	Max 24 hour dose

Treatment Options

Aside from an intense focus on comfort, in the event of deterioration the following may be appropriate:

Respiratory Support: (Check box if appropriate)	Are other non-urgent interventions appropriate? Yes ☐ No ☐
Pharyngeal Suction ☐ Supplemental Oxygen ☐ Bag & Mask Ventilation ☐ Intubation ☐	If yes (please check the appropriate interventions): Vascular Access ☐ IV Fluids ☐ IV Antibiotics ☐

Location of Care

In the event that care at home becomes too difficult, the choice for future care is at:

_____

How to arrange admission to this location: _____

Whilst every effort to accommodate the patient's preference, NSW Ambulance will review the desired location of care at the time of attending the patient, distances and travelling times will be factored into the destination decision.

THIS SECTION MUST BE COMPLETED BY A MEDICAL PRACTITIONER

RESUSCITATION STATUS

In the event of cardiopulmonary arrest: CPR ☐ NO CPR ☐

Rationale for withholding CPR:

- Following consensus with the patient/parents/guardians, resuscitation is inappropriate ☐
- The patient's condition is such that CPR is likely to result in negligible clinical benefit ☐

FOR NSWA USE ONLY:	Date of Receipt:	Renewal Date:
