

NSW AMBULANCE INCIDENTS FOR ILUKA AND WOOMBAH NSW

- **Priority 1 incidents** are calls assessed as potentially life-threatening requiring an immediate ambulance response under lights and siren. **Priority 1A** cases are assessed as the most serious in this category.
- Lower acuity calls are assessed as **Priority 2** requiring an ambulance response in a timeframe appropriate to the condition of the patient without warning devices, or a referral to Healthdirect Australia for secondary medical assessment and advice.
- **R3 incidents** are requests by a medical practitioner for transport within a specified timeframe.
